Xcela™ Power Injectable PICC

Powered for Confidence
Advanced Features and Versatility Designed to Provide Confidence in Care

Confidence in Power
With fundamental PICC requirements as its foundation, the Xcela™ PICC is also designed to deliver the power injection flow rates required for contrast-enhanced CTs.

Confidence in Performance
Advanced features such as large lumen diameters, short reverse tapered catheter body, and radiopacity are designed to augment catheter performance, from catheter placement to care and maintenance.

Confidence in Preference
With a broad range of sizes and kit configurations, the Xcela PICC provides options for a variety of placement settings, insertion techniques and clinical applications.

Clear Extension Tubes
- Early visualization of blood return

Reverse Tapered Catheter Body
- Designed for kink resistance
- Firm pushability for easier placement
- Designed to minimize blood loss at the insertion site
- "0 cm" marker to aid with insertion

Large Lumen Diameters
- Designed to provide greater flow rates at lower pressures
- Developed to minimize risk of catheter occlusion
- Designed for easier blood withdrawal

Advanced Material
- Durable
- Designed to prolong catheter life
- Compatible with most commonly used catheter care protocols
- Alcohol-resistant for simplified care and maintenance

Radiopacity
- Designed for visualization under fluoroscopic guidance and chest x-ray

Low Profile Hub
- Assists in easier hub manipulation
- Designed with increased patient comfort in mind

Confidence in Power, Confidence in Care—Xcela Power Injectable PICC.
Xcela™ Power Injectable PICC

Value-Added Programs and Services

Convenience Kit Program

Improve clinician efficiency, productivity and cost savings with Navilyst Medical’s Convenience Kit Program. Our comprehensive Program provides clinicians with solutions to streamline PICC placement procedures, eliminate the cost of unnecessary supplies and meet department budget guidelines. In addition, clinicians are able to choose from our broad portfolio of PICCs for a variety of placement settings, insertion techniques and clinical applications.

Clinical Education

Navilyst Medical retains a highly credentialed team of clinical specialists committed to providing educational support and training. In addition, a wide range of continuing education programs and support materials are available to you, including wall charts and patient education material, all designed to reinforce best practices for catheter insertion, care and maintenance.
